RE: U-0155-00- Review of Special Use Permit

To Whom It May Concern:

I have been operating Facet "58" Farm Located at 6180 Donald Nelson Avenue in the city of Las Vegas for seven years, since my original special use permit was approved. My business entails boarding and training horses as well as giving riding instruction to adults and children.

Since opening in 2000 the City of Las Vegas Animal Control Unit Inspectors come to our property to review our facility. We have for seven years always received straight A's on our reports.

We are also in great standing with neighborhood services, as Facet "58" Farm has never had a complaint of any kind filed against them. My business is thriving and is good for the area as it is still a rural area with horse trails and a very friendly atmosphere.

Sincerely,

Tovah Iaquinto
